Introduction/Welcome Message

Under the aegis of Atmanirbhar Bharat we started a mission of developing the components of ECMO circuit in our own country to make ECMO economical and affordable to our population.

We have been working on various projects like:

1. Making a ECMO oxygenator
2. Making a ECMO pump and console.
3. Make a ECMO mannikuin
4. Making a Patient Mobilization cart
5. Making a ECMO ECPR mobile trolley
6. GO VENT cannula and Arterial & venous cannula
7. Making Dialyser and CRRT dialyser membrane units
